DETAILED ACTION

1. Amendment and response filed by applicants dated Aug. 10, 2005 have been entered and considered carefully.

Claims 6, 10-12 have been canceled. Claims 13-20 have been newly added.

2. Claims 13-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Please note that the instantly added new claims found no antecedent basis nor description in the specification.

Please note that the R1 moiety has been defined as "acyl". The term "acyl" was not defined but given some examples on page 12. No antecedent basis or description can be found in the specification that the R1 are drawn to the instantly described scope of claims 13-20. Analogous analysis and finding are also applicable to the remaining Markush elements of the newly added claims 13-20 with respect to Y, Q and R2.

This is a NEW MATTER rejection. Removal of all new matter is required. In re Russmussen 211 USPQ 325.

3. Upon removal of the NEW MATTER or claims 13-20, the rejections of claims 1-9 and 11 now only claims 1-5, 7-9 are pending, under 35 USC 112 second paragraph, under 35 USC 102(b) over the 12 CA references, under 35 USC 102(b) over WO 98/27930, 102(e) over US 6,284,760; 103(a) over WO 98/27930 alone or in view of WO 97/28141 and the obviousness type double patenting over US 6,344,358, or 6,284,760 alone or in view of WO 97/28141 or US 5,708,172 are maintained for reasons of record.

Please note that the amendment for claim 1-2, and 8 are only editorial with no change of the scope or language of the claims. After removing of new matter as explained supra, the remaining pending claims are identical to the previous version, therefore, are subject to the identical rejections.

Art Unit: 1625

Applicants arguments are not fully understood because applicants argued that the “rejection is traversed with respect to newly present claims 13-18...”. This is very confusing since the identical set of claims has neither been canceled or amended what does the arguments mean? In addition, it is unclear as to what was the comparison of page 21 for? If this is for obviating any obviousness rejection, then such data must be present under oath and the scope of the claims must be amended commensurate to the comparison i.e. example 2.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
